

REGISTRATION FIRST, VACCINE AFTERWARDS

Citizens can check their "vaccine eligibility" from their e-Nabız account or by sending a text message (SMS) to 2023.

At the end of the appointment application, the citizen will receive the appointment information via a text message (SMS). The information is also accessible via e-Nabız and MHRS applications. **Citizens should go "on the appointment date" to the healthcare facility, where s/he made the appointment for.**

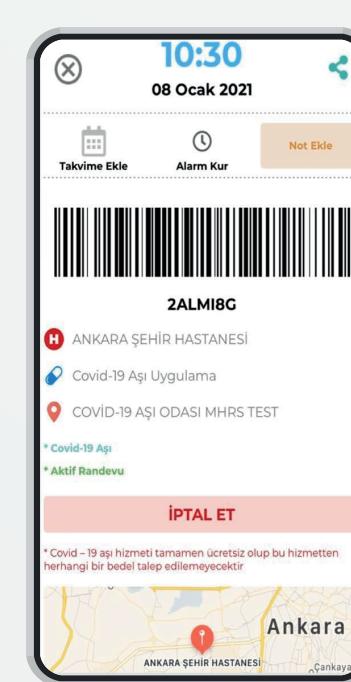

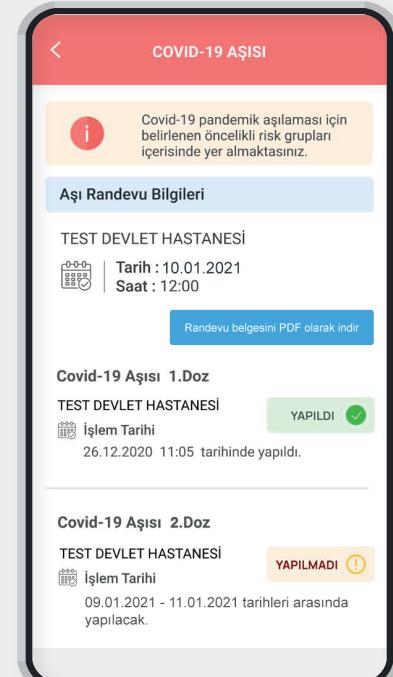

The QR code of the vaccine gets scanned and recorded at the application.

Once the citizen's registration process is complete, the vaccine is administered.

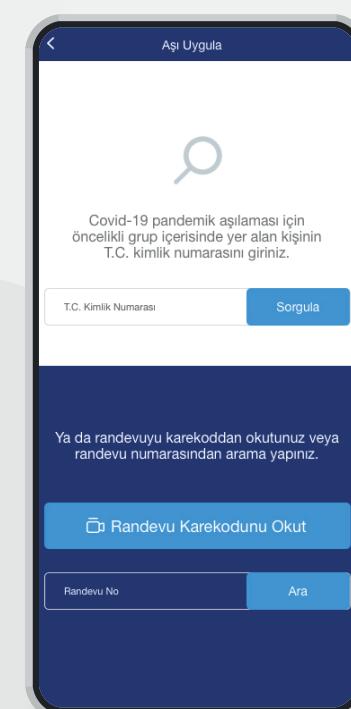

The appointment information for the second dose is sent to the citizen via a text message (SMS).

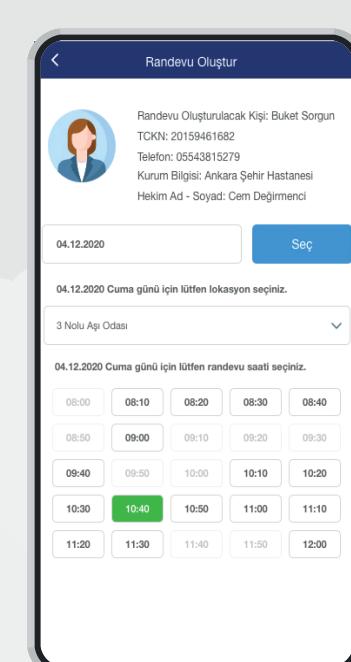

Appointment and vaccination information is again accessible through the citizen's e-Nabız account.

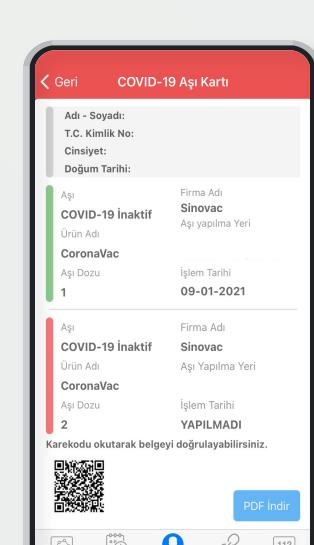

If a citizen is eligible for vaccination, s/he will be directed to the Merkezi Hekim Randevu Sistemi (MHRS) application to schedule an appointment. The process is completed by selecting an appointment date and time.

Healthcare personnel administering the vaccine enter the citizen's information to the "AŞILA" (VACCINE!) digital application.

Healthcare personnel administering the vaccine schedule the second dose appointment for the citizen.

The citizen can access his/her electronic vaccination card through e-Nabız and Hayat Eve Sığar (HES) applications.
