

CRITICAL WARNING

It has been reported that mild side effects such as fatigue, headache, fever, chills, muscle/joint pain, vomiting, diarrhea, pain, redness, and swelling around the injection site may be rarely observed after vaccination with the inactivated COVID-19 vaccine.

If you experience any other side effects you consider to be related to the vaccine after the administration, please seek medical advice (either at a Family Healthcare Center or hospital). Please inform your physician that you have recently been vaccinated.

Thank you.

MINISTRY OF HEALTH**

01

Check whether you are eligible for the COVID-19 vaccine by logging in the e-Nabiz application.

03

If you are eligible for the vaccine, make an appointment for the vaccination via the Central Physician Appointment System (MHRS web, MHRS mobile) or e-Nabiz. To minimize the risk of contact, please do not apply to the healthcare facility without an appointment.

04

To avoid crowding, please be at the healthcare facility no earlier than 15 minutes prior to your scheduled appointment. Please do not arrive earlier than this.

05

Make sure that your mask fully covers your mouth and nose. Do not take your mask off during the vaccination process.

02

In order to find out whether you are eligible for the vaccine via text message (SMS), you can type "AŞI", and your Turkish ID Number and the last 4 digits of your Turkish ID Serial Number respectively by leaving a space between each of them. Send the text message (SMS) to 2023. (E.g. AŞI 12345678910 1234)

07

Enter the vaccine administration room alone, if possible.

06

Inform the healthcare personnel that you have presented to the healthcare facility for vaccination.

08

Healthcare personnel will give you information about the vaccine before administration. The vaccine will be injected intramuscular.

09

After the vaccine has been administered, do not leave the healthcare facility for the time period specified by the healthcare personnel.

10

After vaccine administration, you can access all details of the vaccine (electronic vaccination card, etc.) via a text message (SMS) sent to your mobile phone and from your e-Nabiz account.

11

The appointment for the second dose of vaccine will be given by your physician and sent to your mobile phone as a text message (SMS). You can check or change your appointment through MHRS and your e-Nabiz account. If you wish, you can print and keep the electronic vaccination card containing your vaccine administration and appointment information.

For appointment

12

You have taken the most important step in being protected against COVID-19. However, please continue to follow the social distancing measures, wearing a mask in public spaces and frequently washing your hands after having the vaccine.
